

Greeting,

We would like to thank all teams for their participation in the **Third Event on Play with Real Data**. All teams in the competition were very good at ideas and creativity, and the competition jurors were very impressed by the high quality of the submissions.

Following a scrutinized selection process, the following teams qualified for the final tournament (alphabetical order),

Professional	Amateur
Birjand University	Breeze
Data detectives	Good
Data Magicians	Mr Robot
Data Masters	UT Data Academy
Data Mavericks	Parvaz
Method	Torako
Mine Crafters	
S&S	

These teams require to prepare their presentation in a recorded video (≤ 10 minutes and ≤ 80 megabytes), preferably in English. The video file should be sent to email amargostaran.npa@gmail.com by 21 Oct 2023 23:59 IRST.

The Videos will be judged in terms of creativity, originality, message content, and technical organization (sound and picture) by peer assessment of other team members and scientific committee. Since the current scores are very competitive, we will recommend all selected teams to do their best to prepare the videos. The total score will evaluate by 80 percent from the first assessment result and 20 percent from final assessment scores.

The videos will play in a webinar on Sunday, 22 Oct 2023, 16:00-19:30 (IRST). We invite all team members to attend this webinar to watch the selected teams output and contribute to the peer-reviewing process.

Best Regards,
Rahim Mahmoudvand,
Program chair
